

Exhibition of Prize-Winning Home Plans Analyzed from Architectural Viewpoint

CALIFORNIA ENTRIES BEST, CRITICAL REVIEW SHOWS

North Atlantic States Only Part of Country Whose Designs Compare Favorably With Winners

(Continued from First Page)
are by far the best architecturally. They show a unity of feeling in design and are given a professional presentation. And so it is with the two. Southern California is the better. There is a charm, repose and practical character to the houses from Southern California that none of the rest of them have. It is no wonder that most of the prizes in international competitions are won out here.

The designs from Michigan lack originality. They are a type that could be seen a good many years ago in competitions throughout the country. They seem to have used a miscellaneous assortment of periods. And there is one peculiarity that seems all the same: the stairways take up the most important part of the house with no gain there. The houses have a stilted effect which is a great contrast to the graceful lines of the Southern California designs.

SIMILAR TO CALIFORNIA

The North Atlantic States have an architecture that compares favorably with that of Southern California. The entries are nicely presented, although the plans lack the unity and convenience of arrangement. No particular period is followed and the houses have a tendency to be rakish.

Plans that are not well composed and lack unity come from the Middle Atlantic States. They are taken up and have too many angles and curves. One or two designed at home have been made to look artificial.

Ohio and Kentucky send us plans that are fairly well worked out. The elevations follow no particular style and have a tendency to be rustic.

Typically middle western are the designs from the middle western States. A wild attempt has been made to be original, especially in one design which has a garden green character. The plans haven't the compactness nor the convenience of some of the others, and a very diversified type of design and style has been used.

TWO LEADING GROUPS
After going over the entire exhibit we find that Southern California and the North Atlantic States

are a bit amateurish, and it is difficult to state what precedent was used, if any. There is one entry that particularly has quite a bit of feeling.

One Corner of House Plan Exhibition

Winning Designs Segregated by Districts
The Los Angeles Times exhibition of prize-winning designs in the 1929 National Better Homes Architectural Competition is now being held on the ground floor of the Architects' Building, Fifth and Figueroa streets. The accompanying picture shows one corner of the exhibit rooms where the plans are segregated graphically.

RENTALS OF PROPERTIES INCREASING

Firm Reports Improved Conditions for this City in Recent Months

A marked improvement of rental conditions is revealed by a report of the J. W. Lewis Company, wholesale and manufacturing proprietors, who have recently closed leases calling for the erection of buildings for tenanted, approximately \$250,000 in rentals and building costs being involved in the transactions.

Glass Brothers, wholesalers, have leased the second and third floors of a two-story brick building, 122x50 feet in size, being erected by William Wolfer at 1032-1034 Maple avenue, and to be completed by December.

L. M. Davenport Company is completing for the Detroit Steel Products Company a one-story brick warehouse building comprising 6000 square feet, with spur truck facilities, on the south side of East Fourteenth street, east of Santa Fe.

Construction has been commenced by Harold C. Dewey and Arthur M. Lichy, in a one-story brick building at 717 Stanford avenue, 58x110 feet in size, to be occupied by the Mandel Egg Company, dealers in eggs and food products.

The Johnston Pie Company, formerly located in Eagle Rock, is now conducting all operations in the baking plant erected for it by Claude Hart at 501-509 East Sixteenth street.

The Day and Night Water Heater Company of Monrovia will establish its local offices, display rooms and warehouse at 2320-2322 East Eighth street, upon completion of a two-story brick building being constructed for it by the Roos Egg Company, Inc.

Unitarians of Santa Barbara to Build Soon

SANTA BARBARA, Nov. 16. (Exclusive)—Architect Roland E. Coate, Los Angeles, has completed preliminary plans for a new church building to be erected on Montecito, Barbara and Arrellaga streets for the Unitarian Church of Santa Barbara.

The proposed structure will be of California-Spanish type of construction, and will contain an auditorium, classrooms, committee rooms, social hall and kitchen facilities. It will be built around a patio.

Correction of present light and ventilation evils, it is declared, will not only contribute to health, but by elimination of noise and disturbances, will be an important factor in economic production.

PLANS PREPARED FOR LONG BEACH BUILDING

LONG BEACH, Nov. 16. (Exclusive)—Architect George D. Riddle, Long Beach, is preparing working drawings and the Monarch Construction Company, Long Beach, will erect a one-story store building on Sixth street near Pine avenue for the Golden Investment Company. Plans call for a building fifty by 150 feet, brick construction.

FACT AND COMMENT

(Continued from First Page)
increase the worth of realty. He has obtained the Southern Pacific Railroad for Los Angeles, owned and operated the first horse-car line, assisted in the organization of the Chamber of Commerce and the University of Southern California.

But of even more significance is the fact that he has recently written some of the earliest circulars, calling attention to the real estate possibilities in Southern California, and mailed them to friends and acquaintances in all parts of the country.

Mr. Widney lived to see his hopes for the future of Los Angeles come true and may lay the foundation for the faith and confidence of the incoming thousands who have aided in its accomplishment.

Windowless House Predicted

Modern scientists, who have furnished him with the electric heat, the radio, the automobile and countless other inventions in the space of a few short years, are attacking the problems of the home with the expectation of achieving just as much.

The man starting prediction of the scientists, Dr. Frank E. Hartman, Chicago physician, is that the home and office of the future will be windowless except possibly for one or two to provide views outside.

To replace the present windowless, the physician would prefer various places in the walls, small bull's-eyes with convex lenses of transmission glass. On the outer wall, opposite these bull's-eyes, would be condensers which will receive and reflect the light to diffusing reflectors outside.

"When real estate is sold to persons in the State, it should be sold at its intrinsic worth, with the buyer to know that under ordinary circumstances the investment will gradually increase in value.

"When newcomers come to my office to make a large or small purchase, I always ask them what they are buying before I tell them the price. This is the only method by which a Southern California real estate man of today, or of the future, may hope to build up a profitable business, and maintain an enviable position in his community as a good citizen."

The change in lighting and ventilation will be purely from a health standpoint, according to the scientist. Not only will it maintain the health of the person living in such a structure, he declares, but it will almost eliminate those diseases such as tuberculosis, heart fever, asthma, rickets and kindred ailments.

Correction of present light and ventilation evils, it is declared, will not only contribute to health, but by elimination of noise and disturbances, will be an important factor in economic production.

ADVICE TO REALTORS OFFERED

Van Nuys Board Leader Predicts Changes Here in Sale Methods

VAN NUYS, Nov. 16. (Exclusive) E. A. Elkins, newly seated president of the Van Nuys Board, which draws its membership from various towns in San Fernando Valley, maintains that the real estate salesmen of the future will be decidedly different from the salesmen who have figured in Southern California within the last eight to ten years.

"If there has been a slump in the business of Southern California brokers and salesmen within recent years, he says, on the right side of the ledger is the fact that the Valley Realtor's Association, at the local Woman's Club, "it is because brokers and salesmen have been hurt by their own practices."

Real estate is honest merchandise. If any other marketable commodity, and it must be sold that way. Gone is the day in Southern California when high-pressure salesmanship and other "hurrah" methods can be profitably employed in realty transactions.

INTEREST SEEN IN LAND SHOW

Realtors' Project Draws State Attention

Northern Counties Making Reservations

Redwood Association Will Offer Display

The Redwood Empire Association, Edward Morris, president, was the first development organization to reserve space in the California Land Show, to be held in Los Angeles, March 8-23. The display will feature the resources of the section which embraces Marin, Napa, Sonoma, Mendocino, Humboldt and Del Norte counties, and the famous Redwood Highway.

Mendocino county was the first to make appropriation for an exhibit. N. P. Howe, chairman of the Board of Supervisors, has asked for space. Yolo county will have an exhibit, and Fred Shaffer, realty broker, whose exhibits have been grand success at the State fair and State dairy shows, will be in charge.

Redwood county was the first to make appropriation for an exhibit. N. P. Howe, chairman of the Board of Supervisors, has asked for space. Yolo county will have an exhibit, and Fred Shaffer, realty broker, whose exhibits have been grand success at the State fair and State dairy shows, will be in charge.

NOVEMBER 17, 1929.—[PART V.] 3

City Holds Third Rank Nationally in Residence Construction

Partments and Single Home Units Included

Department Survey for Six Months Discloses Accommodations for 9179 Families Built Here

The trend toward multifamily dwelling construction in the metropolitan centers of population is continuing at about the same rate as in the first half of the current year, the Consolidated Hotels, Inc., report continues. "Family accommodations for 142,000 families were provided for in the new residential structures for which permits were issued in the eighty-five cities which had a combined population estimated at 32,970,705, issued a total of 32,970,705 building permits valued at \$1,421,106,598, covering all classes of construction," the report states.

According to the report, the eighty-five reporting cities, which had a combined population estimated at 32,970,705, issued a total of 12,874 building permits valued at \$610,245,416, represented new residential construction, including hotels or 40.7 per cent of the total number of structures and 54.1 per cent of the total valuation provided for in the new residential buildings, the report states. The total value of new residential buildings, worth \$21,500,000, was distributed among the other cities reported.

The statistics will be of great value in the construction of new residential units in the country during the present period. No data is available for comparison purposes in the other cities reported.

The results of the survey show that the eighty-five cities issued permits for 4034 multifamily dwellings, valued at \$353,284,250; 320 single-family dwellings, with stores, valued at \$215,250,250; 12,874 family dwellings, valued at \$406,836; 831 one and two-family dwellings, with stores, valued at \$243,245,686; 121 hotels, valued at \$165,025,250; and 21,054,713 in other types of residential units.

Theater Will be Built on Burbank Site

Construction of a \$500,000 theater, on the southeast corner of Magnolia Boulevard and Hollywood Way, Burbank, was announced yesterday by Earl L. White of Burbank. According to Mr. White, Fox-West Coast Theaters have signed a twenty-five-year lease on the structure which will seat 2000 persons.

The theater, designed by Foss Design and Building Company, will contain 100 rooms, each with an outside exposure. The building will be 100 feet wide, 445 by 200 feet, and is designed to hold about two sunken gardens. Recreational features will include an outside swimming pool.

Announcement of Policy Made by Local Firm

Assuming a constructive lead on behalf of the public and the fire-insurance companies, the Pacific American Fire Insurance Company, Los Angeles, will restrict its agency appointments on and after January 1, 1930, to those agents who are members of either affiliated States association or the National Association of Insurance Agents.

Announcement to this effect was made last week by D. W. Pierce, vice-president and general manager of the company, and was read on the floor of the Oakland convention of the State Association of Insurance Agents by Percy H. Goodwin, chairman of the insurance committee of the national association. The company decision was unanimously endorsed by a standing vote.

The move was made, Vice-President Pierce decided, in support of the company's policy of strict adherence to the American Agency system as best calculated to bring about a greater degree of confidence on the part of the insurance public and a better understanding and closer co-operation between companies and their representatives.

Union Pacific Will Erect Terminal Unit

Hunter-Street Improvement to Cost \$250,000

Executive Notes Industrial Growth of City

Los Angeles' continued growth as one of the leading industrial centers of the United States was reflected in an announcement last week by officials of the Union Pacific System who revealed plans for a \$250,000 addition to the freight terminal facilities of the railroad here. The new building is to be erected at 2025 Hunter street.

WORK STARTS SOON

Bids were returned yesterday and will be acted upon tomorrow by the Union Pacific engineers, and the actual construction of the new building will begin within a few days. It is expected that the addition to the terminal will be completed and in operation by March 1.

Referring to increased facilities, Frank Johnson, vice-president of the Union Pacific System in charge of traffic, said while in Los Angeles last week, "Los Angeles continues to develop industrially and is one of the outstanding cities of the United States in industrial growth and development. The Union Pacific is participating in this growth and this is evidenced definitely by the necessity of increasing our facilities for handling freight traffic. In addition to the necessity of providing for additional industrial capacity for handling railroad or non-railroad traffic, there is a continuing growth in the carload traffic through the location here of many additional industries."

The new building will be a two-story reinforced concrete structure, 100 feet wide and fifty-one feet wide, embodying a floor space of approximately 50,000 square feet.

MANY COMFORTS ADDED

The first floor will be devoted to the handling of the additional freight requirements. The offices of the division engineer and his staff will be housed on the second floor of the new building.

A departure from older methods of railroad construction is being carried out in the building of the new offices, many added facilities for the comfort and convenience of the employees being inaugurated.

Northern Man Gives Praise to License Meet

Unanimous approval of the meeting of license-law officials of western states held in conjunction with the recent convention of the California Real Estate Association was expressed by G. V. Johnson, deputy Real Estate Commissioner of Oregon in a communication to the organization.

There is no question but that if an official attends these conventions with an open mind, his contact with various licensing officials and the information he may obtain from their experiences, will make him better equipped to administer his state.

Many points are discussed in these conferences that are beneficial to the enforcing officer, and I believe the cost of such a trip will be saved many times by the information received.

"At all times let us continue these conferences of licenselaw officials, and next year I hope all the western States and the Province of British Columbia will be represented at our meeting."

Federal Roads Being Built of Higher Quality

Disclosing that in every section of the United States graded and drained earth highways are steadily being replaced by higher types of surfaced roads, a survey just made by the Monolith Portland Cement Company also reveals that up to September 30, last, there had been built 72,460 miles of Federal aid thoroughfares.

On that date there were 10,314 miles under construction at an estimated cost of \$26,740,729, and a Federal-aid allotment of \$104,097,210, according to the Monolith company's survey, which is based on figures furnished by the U. S. Bureau of Public Roads. States with the greatest mileage under construction are given in the report as Texas, 389.5 miles; South Dakota, 335.1, and North Dakota, 297 miles. States having the smallest number of miles under construction are given as Hawaii, 35. Rhode Island, 172.3, and Delaware, 212.3 miles.

Sub bids are being taken by Balfour Beatty & Company Los Angeles for erection of a one-story industrial building, of steel frame construction, on Sixtieth street, near Avalon Boulevard.

Celebration Will Mark Inaugural Day of Store

Ralph's newest establishment in Westwood Village will open this week, marking the entrance of this concern into this area.

Financial Building Recently Opened

Pico Bank Building

PICO BANK OPENS NEW STRUCTURE

Safety Equipment, Held Feature of Institution on Whittier Boulevard

The new building of the National Bank of Pico on the north side of Whittier Boulevard, west of Durfee avenue, recently opened, features its safety equipment.

The bank screen is bullet proof and the tellers' windows are a departure in design, being impossible to shoot through, yet providing personal contact with the public. By means of various bullet-proof steel devices and mirrors, those behind the banking screen are declared to have a complete command of the public's operations.

The building is a brick and concrete structure with a fifty-foot frontage on Whittier Boulevard. The facade is of art stone, terra cotta, ornamental iron, red leather, marble and plate glass.

The banking room has a lofty ceiling decorated in the Spanish manner, with symbolic heraldic escutcheons. Ample daylight is obtained through the roof lighting and the large front windows.

C. L. Edmonston, president;

Frank J. Haas, vice-president, and director; Charles T. Thomas, George E. Tripp, Oswald G. White, Fred Layman and James H. Waller are officers of the bank.

Lloyd Ralphy, architect of Los Angeles, designed and supervised the construction of the building at an approximate cost of \$30,000.

Dial Telephone System Plans Now Under Way

Work on La Jolla's new \$200,000 dial telephone system is now under way, the construction of a one-story Spanish style central office building having recently been started. Approximately \$30,000 will be expended by the Pacific Telephone and Telegraph Company for the building; \$150,000 for dial central-office equipment, and \$80,000 for outside plant equipment.

According to present plans, the new telephone system will be placed in service about the middle of 1930.

Fruit Orchard at Terra Bella Reported Sold

TERA BELLA, Nov. 16. (Exclusive)—The Nathan T. Bradford orange and deciduous fruit orchard comprising forty acres was sold this week to Robert Barnes of this city, who owns property on Terra Bella Boulevard.

The Bradford place is situated about two and one-half miles northeast of this city, and is developed with a large bungalow residence, water and ranch buildings.

It was planted to citrus and deciduous fruit trees last year. Mr. Bradford reported that the trees had been sent to Robert Barnes for the dental office and laboratory.

The new telephone system will be placed in service about the middle of 1930.

FIRM RECEIVES CONTRACT FOR BANK STRUCTURE

HUNTINGTON PARK, Nov. 18. (Exclusive)—The J. D. Moyer residence, erected at the southwest corner of Pacific Boulevard and Zoe avenue, by Mr. Moyer about a score of years ago, is being removed to a new active site in Huntington Park. G. E. Banta, having started the erection of four \$13,000 dwellings and three \$1900 dwellings on Middleton street, during the past few days. K. A. Knudson is erecting two residences on State street, one at a cost of \$6,000 and one at a cost of \$4,000. W. E. Daly is building a \$4,800 dwelling on Cedar street, and C. M. Watts has started the erection of a \$2,500 dwelling on Saturn avenue.

The residence is a landmark, being one of the first to be erected in the business section, and for the new bank of Italy building to be erected on that corner. The bank recently purchased the site and residence, and has sold the dwelling.

MOTORING

MILLION AUTO VISITORS DUE

Two-Month Count Made of Entrants to State

Census Used as Base of Estimate for 1929

Southern Gateways Get Winter Burden

Approximately 1,000,000 motorists from other States will enter the borders of California during 1929, it is indicated in figures compiled by the touring bureau of the Automobile Club of Southern California that have just been made public.

This huge estimate is based on a check of travel for September and October on the number of "foreign" cars passing through the border stations of the California State Department of Agriculture. There are twenty-three of these in the State, only three of which are in Southern California; however, most of the northern stations are closed during October for the winter months, so that a great part of the winter State travel enters by these important southern gateways.

TWO - MONTH COUNT

The number of cars from other States entering California during September was 26,762. In October 54,430 came in, making a total for the two months of 81,192 cars. A check of the figures for November showed an average of 24 passengers to the car, which would mean that 160,124 persons entered the State in autos during these two months. Taking this period as an average, it is found that the estimated total for the year is 90,804.

Of the total foreign cars entering the State in the two months mentioned, there were 16,916 cars carrying 50,000 persons entered by the Myrtle, Daggett and Yuma routes. It is expected from now until spring that the number of tourists will be increased, since the northern gateways will be closed.

NORTH ROUTES CLOSED

Although many of the entrances to the State in the northeast will be closed during the winter, the roads from Oregon, carrying most of the Washington and Canada travel are open all year. Tourists from these locations come in large numbers, and the Canadian roads for the older routes and those with the easterners arriving over the southern routes, keep a steady stream of out-of-state travel all winter in the Southwest.

From data at hand it is anticipated by the touring bureau of the big organization that 1929 will establish a new record for motor tourists. All signs point to a heavy winter travel so that 1929 will have a running start toward another banner tourist year.

Conditioning Oil Developed for New Cars

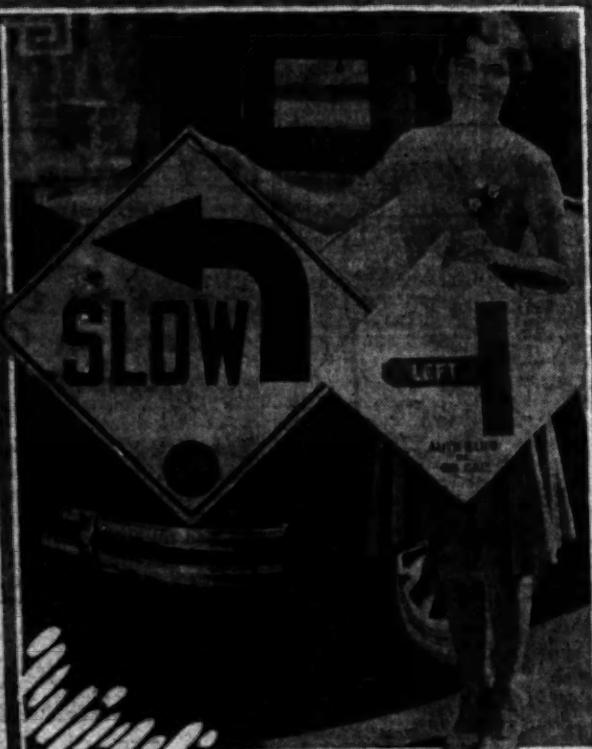

The onward march of lubrication progress has brought an entirely new product to motor car owners, repair and service shops, with the announcement by the General Petroleum Corporation that Paraffine Conditioning Oil is being offered for general distribution after extensive tests of two years time.

The announcement states that no similar product is now in general use, and advances the conditioning oil as a lubricant for new motor engines, and those that have been retooled or reground which, in the opinion of the company, go through a tedious "breaking-in" process.

A conditioning oil has been needed.

General Petroleum engineers point out, "Every newly ground or bored metallic surface, however careful the machining, is covered with a thin film of the average lubricant to prevent a fill in the depressions in the metal surface to form a proper film of lubricant between pistons, rings, and cylinder walls. Under a microscope examination, the metal surface shows up in 'raw tooth' form."

Old and New in Road Signs

The development of transportation has brought about coincident developments in the style of highway markers. On the right the young lady holds a sign erected twenty-two years ago by the Automobile Club of Southern California on the Job's Lot, the type of section guide which conforms to Federal uniform specifications.

Checkers by John Dougherty

November 17, 1929

PROBLEM NO. 1298

Chess and checker headquarters, 810 Union League Building, corner of Second and Hill streets. All chess and checker players invited to join club.

All communications intended for this department should be addressed to John Dougherty, 4028 Dalton Avenue, Los Angeles, Calif.

AMONG THE FANS

The following communication was handed in by David C. Whitehill: "Please announce that chess and checker players are requested to meet next Monday evening, the November 19, at 8 o'clock, in the Community Building at Exposition Park, to organize a club to be known as the Exposition Chess and Checker Club."

The editor now has a supply of Rankin's new book.

Basil Case writes from Chicago that about next February he will be in Los Angeles to lecture on chess which will deal with corrections of various published books.

CHANGES SHOWN IN CAR STYLES

**Chicago Salon Reveals Many
New Body Lines**

**Foreign Auto Carries Away
High Price Award**

**Two Front-Drive Machines
Among Exhibits**

BY E. X. WATSON

(Written Exclusively for The Times and the North American Newspaper Alliance)

CHICAGO, Nov. 18. (Exclusive)—

America's national showing of custom-built motor cars, known as the automobile salon, has been in progress here during the last week. The exhibition indicates that style in automobiles is changing and that the familiar body lines of some of the oldest and best-known makes eventually will be discarded.

Modern design, as apparent in the architecture of buildings, is beginning to have its effect on the shape of the radiators and the cut of the body of automobiles. The engineers who shape the new cars are trying to imitate the more common sky-scraper body colors and line silhouettes, as some of them call it. They go in for effects that lead the eye to the belief that the shape of a vehicle is raised and foreshortened, altogether out of proportion to actual measurement.

BOW EFFECT ATTAINED

These car builders seek to convey the same kind of impression as the modern skyscraper buildings, known as if they are too heavy. In the case it is done by setting the bodies lower than ever on the chassis, by pinching in the lower end of the radiators so that the slope is upward, by flattening the front and the windshield and doors backward, by flattening the tops and by squaring the corners of the windows in order to give the effect of length easy to translate into speed and motion.

In this year's designs the long hood is the badge of European style, and many of the American custom body builders are copying it for convertible and sport body types. Other European characteristics include the use of sideboards to fit sunshade into the front of the sport coupes. On the roadster, coupe and phaeton type the body panels are carried down below the chassis level and in certain models it has been possible to mount the door sill so low that running boards have been done away with.

FOREIGN CAR WINNER

In as other years, the distinction of the year's best car goes to the saloon which the visitors to the exhibition voted to be foreign made, although the body design was by an American builder. It was the Rolls Royce town car, listing at \$21,000, for which Brewster & Co. fashioned body and coach work.

In the most popular upholstery, by Bayriven of France, and it is said only enough of it was woven for half a dozen cars. The tonneau is embellished with wood inlay, said to have cost more than \$2000. It is by Gruen, an interior decorator of New York.

The total value of the ninety-five cars exhibited in the salon approximated \$10,000,000 and there were no cars listed lower than \$2000. The number of firms represented by chassis and body work was half as large again as of any previous year. Five nations were represented: England, the United States, Germany, Belgium and Italy.

One of the oddities noted in the exhibition was the absence in some of the smartest bodies of vanity cases which for years have been supposed to hold charm for milady. Now, however, it is considered that women carry their own cosmetics kit, and the men do not mount them in the cars any more. Instead they have put in more and better cigarette lighters and ashtrays, which it is thought will be of real convenience in view of the increasing number of smokers among women. One custom-built car has as a trick device a table that can be set up in the tonneau. When not in use it can be folded into the back of the driver's compartment.

RAYON APPEARS

Rayon in interior trimming made its first appearance in a motor car, as did Italian goat hide, which was used as the outer material in a car with a fabric top. The snake skin seen in the cars of former years was confined to only one or two models. Its use for upholstery and seat covering is being displaced by the comeback that leathers in novelty shades and hues are making.

The "Lettit" will carry, in addition to the customary cruise staff, a complete university faculty, members of which, at convenient hours en route, will give stimulating up-to-the-minute lectures on trade, finance, international events, customs, history, art, etc., as the world is unrolled before you—all in addition to usual cruise diversions and sightseeing, as well as extensive overland trips through Europe, Palestine, Egypt, India and Japan.

A unique opportunity for you and your family to acquire international interests and knowledge. Sail from New York December 28th, see the world, and be back to business by April 1st. Return from \$1450 to \$7000. Booklet and deck plans upon request.

Occidental Gridders Trample on California Tech Engineers for 27-to-0 Victory Offside Penalties

TIGERS WALLOP STANTON SQUAD

Oxy Takes Third Straight Conference Game

Collier and Rozelle Play Star Roles in Tilt

Battle With Pomona Will Decide Championship

Occidental's powerful football eleven ran roughshod over Caltech's Engineers at the Rose Bowl yesterday, winning by a 27-to-0 score. It was the third straight conference victory which means the annual Pomona-Oxy game will be truly a championship battle. The Engineers have not suffered defeat in five conference tilts to date.

It was Bud Collier, the demon Abrahams half at Oxy, and Glenn Roselle, the other first-striking plumping half, that brought the Engineers a victory yesterday. These two visiting seniors, along with Jim Galloway, total of 125 pounds between them, 102 of which were Collier's work, and 60 of which were Roselle's contribution.

CALTECH WEAK

Caltech's very weak attempt to upset the Oxy eleven can be shown by the fact that the Engineers gained only two first downs in scrimmages in the entire game, one in the second, and one in the third quarter, as compared to the 10 first downs of Dick Glover, the leader of the Oxy attack against Whittier recently, and Howard Elliott, each piled up a total of 26 yards apiece. Harry Johnson, the fighting quarter, accounted for 27 yards himself.

Collier's threat for a score in the initial period, but Roselle fumbled. Again in the closing minutes of the first quarter, Collier started a march toward the Engineer goal posts which he made good for a score after two first downs had been gained. This was followed by a 15-yard run to place the pigskin on the Tech 8-yard mark, after which he hit center for 7 yards. Roselle converted.

Just as the gun went off for the half Howard Elliott made a 10-yard run from the 11-yard line, and a second was gained before he had to hold, and he crowded the end zone the ball for a safety and Oxy tally. Roselle failed to convert on this attempt. Collier also started this attack. Roselle helped considerably with the 15-yard gain and the 7-yard run to the Captain's Cap. De Mille gave Elliott his chance to score.

Roselle kicked to open the third frame. A few plays and Boyle of Tech kicked to Glover, who was downed on his own 22-yard mark. Again Collier started a march toward the end zone, but this time he never failed to net at least 4 yards, and after the Tigers had gained some five first downs in succession the ball appeared on the Tech 3-yard mark. Collier made the remaining right and left runs around right and left for a touchdown. He converted.

COLLEGE'S DASH

Collier recovered a fumble of Dickey's in the last few minutes of the third quarter, which sent the Tigers half on Oxy's 15-yard line. Collier, after a 10-yard alternate run, at carrying the pigskin, which finally ended in a 7-yard dash of Collier's through the center of the Engineer line for a fourth and final score. Roselle converted.

They ended the third quarter and with the opening of the fourth Coach Eddie Klemm reckoned about every Jay regular, and later several second-string players to give every Oxy man on the sand a Jay and a Tom. The Spartans followed these same tactics in the closing five minutes of the tilt.

The line-up:

Pomona and Occidental Football Teams Meet in Traditional Southland Classic Saturday

OUTCOME OF OXY-SAGEHEN GAME TO DECIDE TITLE

Tigers and Rivals Enter Tilt on Even Terms; Wild Battle Expected by Fans

BY BRAVEN DYER

Occidental vs. Pomona for the championship of the Southern California Conference. That's the dish offered local grid fans next Saturday when the ancient rivals clash at Alumni Field, Claremont, in the grand finale in the 1934 season.

It's been this way practically every year since Pomona and Oxy started their annual meeting back in the early '30s. Once in a while Caltech, Whittier or Redlands has slipped in to win the title, but for the most part the championship has generally gone to the winner of the encounter between Sagehen and Tiger.

This year Occidental is the defending champion and once more is in a slight edge. Add to this a distinct edge in weight and with it a more powerful driving attack and you have a combination which sure to name Pomona as the winner. Nixon, who is considerably better fortified with reserve material than his rivals.

On Pomona's side of the ledger may be noted the fact that Eugene Nixon, in his thirteen years of coaching at the Claremont institution of learning, has never won a football championship, so far as we know, in the 1922 season. Last year Oxy won, so if Nixon is going to keep up his great record his team must annex Saturday's encounter.

The strength of the Sagehens is pointed to in that they boast a pretty tough football team when they outmanned Arizona, 15 to 13, in a hard-fought game at Phoenix recently. Arizona upset Occidental, 14 to 7, in the first local game of the year.

However, comparative scores such as these two mean little. Oxy was obviously off form in the Arizona game. This year Nixon was played at night, being the Tigers' first experience under such circumstances. Oxy showed plenty of drive and power that night, but lacked ready signal calling and all-around smarts.

Where Pomona has an edge on the offensive side is Occidental. It was upset last to Whittier, 14 to 7, and defeated by both Sagehens and Tigers. Pomona had a pretty tough time upsetting the Poets, 20 to 14, the Tigers leading at half-time, 14 to 12. Oxy gave Whittier a 24-0 drubbing, though the score was 20 to 6. While the Poets made two touchdowns against Pomona in the first half they didn't even make a first down against Occidental. However, the Quakers really put up a good fight, and were beaten the same time they did against Oxy. Something was decidedly wrong with Chief Newman's boys when they fell before the Eagle Rock outfit.

Since Nixon came to Pomona in 1916 Occidental has won but four games from the Sagehens. They have lost only one game during this period. The wins for 1916 and the score was 7 to 2. This season might be the time for another tie.

Both teams possess well balanced backfields. Pomona's runs a bit more to speed and open-field running than Oxy's but the Tigers have a real speed burner in this chap Dick Glover, who scored three touchdowns against Whittier.

Clean Record—But Connor, Stacey Johnson, and Gandy will probably open for the Tigers, with Bill Myers spelling Johnson at quarter and Art

Roosevelt Hurls Defi AT MAJOR CITY LEAGUE

For the second time in as many years Coach Clark De Groot piloted the Roosevelt football team to the Minor City League championship. De Groot is so confident of his team's prowess that he is using this column to officially challenge the champions of the City League to a post-season game.

In winning the championship the Rough Riders were the only team out of the five members Belmont being the only team to upset them. In the very first game of the season they met and defeated Belmont, the early season favorite. The game from then on were considered a walk-over. This theory was knocked into the form of a cocked hat in their next game with the Belmont Hilltoppers, in which they were upset, 13 to 7.

The defending champions won their remaining three games in convincing fashion. University, Garfield and Fairfax falling beneath the hoofs of the fast traveling Rough Riders.

Roosevelt finished a close second in the league as they also were defeated once, but did not tie with Belmont for the championship because where two teams have the same average, the defending champion is given the highest place.

Coach Bill Witherspoon's Beloit Hilltoppers had the critics grousing, not only before, but during the season. Prospects for a high caliber team at the beginning of the year were very disappointing, and a place in the minor football campipn two seasons ago had been reserved for the Hilltoppers. However, when they held the strong Fairfax team to a nervous tie, they began to attract more than passing attention. Their next act was to win the bulk of the Sou-

SOME OF THE MIGHTY SAGEHEN GRID VARSITY

All primed for their annual tussle with the Occidental College Tigers, the Pomona Sagehens seem to be in great shape for the big game this Saturday at Claremont. The five bulky gentlemen leading the parade are Al Putnam, Fiske Hartman, Bob Bayham, Blair Nixon and Harold Stancer. All five are backfield men. The two pugnacious looking gentlemen are Frank Dyer and Clarence Bishop, two of the toughest ends in the Southern California Conference. John (Punchen) Judy is the big baby at the bottom of the layout. Judy holds down the center position for the Sagehens. Due to their strong showing against Arizona two weeks ago, many believe the Sagehens will be the favorites to win this Saturday.

This Week's Prep Games

MAJOR CITY LEAGUE

Franklin at Poly. L. A. High at Jefferson. Lincoln, 1934.

FOOTBALL LEAGUE

Mir Tech at Fullerton. Burdette at Monrovia. Santa Monica at Hoover. Whittier, bye.

ORANGE COUNTY LEAGUE

Huntington Beach at Anaheim. Buena at Tustin. Escondido at Garden Grove. Orange, bye.

COAST LEAGUE

Panama at Long Beach. Glendale at Alhambra. San Diego at Santa Ana.

OTHER GAMES

Harvard Military at Cathedral. SAN FERNANDO VALLEY

Owensmouth at San Fernando.

EIGHT BOXERS PUT ON BLACK LIST HERE

SACRAMENTO, Nov. 16. (UPI)—The State Athletic Commission announced today it had suspended the names of eight California boxers for violation of rules. Those suspended were as follows:

Wesley Ketchell, San Francisco, one month for fouling; Al Sing and Equil Stelito of Los Angeles, two months each for nonappearance; Harold Jensen of Modesto and Frank Rowsey of Fresno, two months each for nonappearance; Willie Tucker, Los Angeles, indefinitely for striking; and Eddie King, San Jose, indefinitely for quitting and Gene O'Grady of Ashland, indefinitely for fouling.

Clean Record—But Connor, Stacey Johnson, and Gandy will probably open for the Tigers, with Bill Myers spelling Johnson at quarter and Art

OXNARD BOWS TO SAINTS

Santa Barbara's Golden Tornado Sweeps Through Yellow Jacket Eleven, 38-0

SANTA BARBARA, Nov. 16. (Exclusive)—Santa Barbara High's Golden Tornado added another victory to their already long list of triumphs by whipping the Oxnard Yellow Jackets here today by a score of 38-0. Bill Pescott, the high hurdling halfback, and Eddie King, fullback, led the Saints' scoring, both tallying twice. Coda and Sater, songstabs, sub backs, scored the other touchowns.

Today's win was the ninth in the season, Owensmouth, Muir Tech

of Pasadena, Iron froth, Ventura, San Joaquin, Santa Maria, Glendale and Millmore all having been wrecked by the Santa Barbara windstorm.

Clarence Schutte, the Santa Barbara coach, has developed a power offense aggression this year. So far the Saints have run up 237 points to the opposition's 32.

NEXT Saturday Santa Barbara takes on San Bernardino in the first game of the first round of the CIF prep play-off. The game is scheduled for Santa Barbara.

LONG BEACH, NOV. 16. (Exclusive)

Long Beach Poly had a tough time beating the Hilltoppers.

Alfredo Moreno, the Hilltoppers' coach, was successful in giving them a second 26-to-6 setback. The fact that they had a close call in their battle with Garfield was not considered very something. With all this in mind, they made a determined effort to beat the Hilltoppers, and were almost successful, but weakened in the last half and were need out. The team finished fourth in the league standings, with two victories and three losses.

Fairfax's debut was not quite as successful as it might have been. They got off to a bad start when they were tied by the Hilltoppers. Poly came out on the field with a 10-point lead.

The assumption that they had lost the game by a single point evidently shattered their morale, as they were lucky to beat Garfield in their last game of the season.

Fairfax's debut was not quite as successful as it might have been. They got off to a bad start when they were tied by the Hilltoppers. Poly came out on the field with a 10-point lead.

The Hilltoppers, who had one loss, but the fact that Belmont

had a record of 1-1-1, was the reason for their loss.

Lack of a scoring punch cost Coach John Belford's Garfield squad at least two victories. At times the offense would work perfectly in midfield, only to fall miserably once inside the opponent's 10-yard line.

The Bulldogs, who had one loss, game, but the fact that Belmont

had a record of 1-1-1, was the reason for their loss.

The records show that Belmont

is the only team to win the Minor League football championship two consecutive years.

It is found that in 1934 the Hardin Warriors finished first. The year 1925 was Fairfax's year, and 1926

and 1927 showed Belmont to be the victors. The remaining two years saw Roosevelt leading the way.

Indians Seek Two Players From Coast

CHICAGO, Nov. 16. (Exclusive)—Billy Evans is out on the Pacific Coast hunting for one or two new players to aid the Cleveland Indians challenge the Philadelphia Athletics for next season's pennant. One, or possibly a couple of Coast youngsters would strengthen the Indians. Just who the men are Evans seeks is not known. The Cleveland outfit is weak at short and possibly might be interested in Gordon Stade of the Mission team. They might have an eye on Gus Sulu for first base, although Fonseca looked good enough last summer to last two more seasons.

Matchmaker Wad Wadham has hooked up the heavyweight card with a strong set of beans. Henry Goldberg, Jewish middleweight and Artie Reiss, has been paired with Eddie Rosenthal. Goldberg has fought Rose Vee twice-winning one and losing one.

Burnbrook is an eastern fighter. He started a comeback about a year ago and has fought himself into good shape again.

Frankie Fazio, Alexander of Hawthorne, and Bud Doyle from San Francisco meet in the special event. Doyle has never showed here before. They weigh around 185 pounds.

The two bouts are Society Red vs. Joe Reinhardt and Herbie Brown vs. Tommy McGough.

Yellowjackets Ruin Riverside

PULLERTON, Nov. 16.—Pullerton Junior College reserves with but little help from the regulars defeated Riverside Junior College in a winless game this afternoon by a score of 25 to 0.

Art Nunn started his reserves

and they scored a touchdown

and converted in the opening period.

In the second quarter he sent in the regulars and they ran up 26 points on Riverside before the half.

Both teams had a big

turnout for the first half of play.

A red-tinted flag was raised

in the air and, following

the first half, the Yellowjackets

ran out onto the field.

Long runs and passes featured the game. Riverside taking to the air for what gains they made. Nunn worked his reserves for most of the second half, the regulars finishing the last two minutes of play.

PALO VERDEANS SCORE AT FAIR

First Midwinter Exposition Held at Blythe

Business Area Storerooms Used for Displays

Civic Leaders Prepare to Make Annual Event

BY BURTON L. SMITH "Times" Staff Representative
BLYTE, Nov. 16.—Evidencing the progress and prosperity of a district twenty-six miles long and six miles wide, the first annual Palo Verde Valley Midwinter Fair opened here yesterday. Gathered from the 80,000 plot the fair displays are much more elaborate than the size of the territory would indicate.

For their first attempt at a community fair the various civic organizations of this agricultural center joined forces to assure the success of the event. Neither time nor money permitted creation of a fair-like atmosphere, but the merchants' committee located the exhibits of the several departments in business houses on the main street of the valley. There are poultry, agricultural and woman's displays, each a noteworthy effort in itself. A room in the First Building on Hobson Way is devoted to the showing of agricultural products, and like this valley, adjacent to the Colorado River, alfalfa and cotton predominate.

HAY AND GRAINS
The side walls of the storerooms are given over to an interesting and artistic display of hay and grains, while in the center of the room there is a large display with the fruits and vegetables from the fertile gardens of this valley. King Cotton maintains his place in the sun with a display that has not been equalled the larger and older events of the year. Varieties of cotton and its by-products are arranged so as to present entertainment for all and instruction to many. Prizes for displays in this class were awarded to E. B. Carrasco, second; N. W. Hamilton, and third, W. G. Shollberger.

In the rear of this room is an outstanding industry of this section. The showing was well worth the time spent. It is still rich in gold, silver, copper and manganese, and the display is both rich and varied. In connection with this showing a quantity of Indian and pioneer relics attracts its share of attention.

POULTRY FEATURER
The poultry show, which is no small part of the exposition, is housed in another room of the First Building and proves without doubt that the Palo Verde Valley is a leader in the poultry industry. Exhibit after exhibit of various breeds, crosses, ducks, guinea fowl and unusual varieties of barnyard fowl make up the display. In point of interest both locally and over the southern section of the State the poultry exhibition was second to none.

The Gilding Building the women of the community have contributed in a large measure to the success of the fair. With a display of home-made articles, dainties, cooked food, antiques and confections, the woman's display attracts the interest and holds the attention of all the visitors.

Livestock stock has not been neglected. A large segment is devoted to a variety of horses, cattle, hogs, sheep, goats which all go to prove this auction's supremacy as a live-stock center. Tractors and farm-machinery are shown as part of the display and are both numerous and varied in their character.

COWBOYS ENTERTAIN
A leading adjunct to the fair is a rodeo, featuring real cowboys, with a daily program of stunts of skill and daring seldom witnessed outside of the events of its kind which have become national institutions.

Collectively, Palo Verde Valley's fair has exceeded the dreams and hopes for success of the first venture of this kind and assures a continuation year after year of this event of the farmers, sponsored by the business men of the town.

For the future, too, in all probability, will be a part of future events for which a permanent organization will be an outgrowth of this year's fair.

POLICE DOG FANGS TEAR AGED WOMAN

On Eve of Birthday, Mrs. Annie Bryant of Ontario Set Upon by Animal

ONTARIO, Nov. 16.—Mrs. Annie Bryant, who will observe her seventy-fifth birthday tomorrow, was in critical condition today at her home, 156 Acacia Court, suffering a fracture of both bones in her left arm and deep and torn lacerations caused by the teeth of a huge German police dog that attacked her while she was going to her home with a package of meat in her hand.

The dog evidently smelling the meat, dashed out of a yard in South Antonio avenue, leaped upon the woman and sank its teeth into the soft arm with such violence that the tendons were broken and the flesh torn from the bone. Fury of the attack buried Mrs. Bryant to the sidewalk, which caused additional injury of serious nature. Fifteen stitches were required to close the wound in the arm caused by the dog's teeth and the protruding broken bones which were thrust through the flesh in the fall.

Mrs. Bryant makes her home with Miss Edna Bryant, her granddaughter, assistant librarian at Ontario Public Library.

NOTEBOOK CLEW IN POISONING

Missing Record May Show Name of Woman With Whom White Had Date

SAN DIEGO, Nov. 16.—Efforts to identify a woman with whom E. E. White, 64-year-old realty man, had an engagement on the night of the 7th inst., when he was returned to his home in an automobile dead, were being made here today by police. After a day dedicated to the investigation, various studies of White's mysterious death, O. A. McCollum, detective sergeant, said he had learned that White had an appointment with a woman on that night.

A little notebook, which White possessed and which is said to have contained a record of his engagements with a number of men and women, is believed to contain the name of his companion on the night he died. McCollum is seeking this book.

White died of a rare poison which was found in his vital organs, autopsy surgeons determined after examining the body.

McCormick examined this poison and the circumstances under which it was administered remains a mystery.

The real-estate man was delivered home dead by a mysterious man and woman who notified a neighbor, Mrs. Jane Hyatt, that White would be found in the car parked in front of his home.

Twins Arrive by Caesarian Route

MONTEREY PARK, Nov. 16.—In one of the rare cases of its kind, twin boys were born by a Caesarian operation last night at the Garfield Hospital to Mrs. H. C. Riblett of 2914 Evelyn avenue, Wilmar. The condition of the mother and the two babies was said to be "very good."

Other new offshoots of the family are: Dr. Lorenzo V. Smith and Dr. M. G. E. Bennett, assisted the attending surgeon, Dr. Dee M. Rees. The life of the first infant was endangered by the operation and the doctors acted it out by emergency treatment. The babies were delivered in Slauson Hospital.

Newton D. Baker, former Secretary of War under President Woodrow Wilson, with representatives of the Los Angeles law firm of O'Malley, Tuller and Myers, arrived in the city yesterday. Their client, Mr. McCormick, Attorney General of California, was appointed guardian of her incompetent husband, Stanley, and his \$40,000 estate and to remove the brother, Harold F., and the sister, Mrs. Anita McCormick Blaine, from the board of guardians today were preparing to wire him. The babies were born in Slauson Hospital.

Newton D. Baker, former Secretary of War under President Woodrow Wilson, with representatives of the Los Angeles law firm of O'Malley, Tuller and Myers, arrived in the city yesterday. Their client, Mr. McCormick, Attorney General of California, was appointed guardian of her incompetent husband, Stanley, and his \$40,000 estate and to remove the brother, Harold F., and the sister, Mrs. Anita McCormick Blaine, from the board of guardians today were preparing to wire him. The babies were born in Slauson Hospital.

Baker declared the proprietor had not taken the license number of the car he was driving, although it is required to under the state of California. He says he is "new" in the State and was not aware of the regulations.

COUNCILMAN SWEORN IN

SAN FERNANDO, Nov. 16.—Charles V. Walzer, who was recently appointed a member of the San Fernando City Council to succeed H. G. Muegge, resigned.

The hearing was originally scheduled to open Tuesday but the call for Judge Dehy has caused a postponement until Thursday. The legal battle over the guardianship over the multimillion-dollar estate began last fall when Mrs. Monteclaro, wife, filed a petition to remove the brother and sister from the board of guardians. The brother and sister filed cross-complaints asking the judge to determine the best method of treatment for the incompetent man who for nearly thirty years has lived in a walled estate in Montecito, exclusive residential district, near here. He is taken on daily drives, is entertained with a special motion-picture machine as well as private musicians and an orchestra. His two large men number, however, when he leaves the estate, which is heavily guarded by special deputy sheriffs to keep out the curious and prevent the incompetent's escape.

The differences between the brother and sister on one side and the wife on the other is over the employment of Drs. J. E. Kempf and Dr. William White of New York City. Dr. Kempf lives on the incompetent millionaire's estate while Dr. White maintains offices in the East.

Mrs. McCormick specifically charges Dr. Kempf with attempting to alienate the affections of her husband and of attempting to make his care of Stanley a life's job. In his preliminary hearing, Judge Frank P. Murphy of Los Angeles, who presiding here, overruled the demurrers and decided the court should go into the care of the incompetent millionaire is receiving.

He was engaged for a long time and her family knew it, she said. She asserted that he wrote her letters after she went East, and told her she was coming there to get her.

But another question was also unable to tell where she and her husband had spent the night on the trip to Yuma to get married, nor where they had spent the first night after their marriage. After the wedding, the couple went to San Clemente, where he married the daughter of the Mayor.

Ole Hanson, founder of the beach

club, Capt. Haakon H. Hammer,

who explored the north with Amundsen; Hal Warner, nephew of the late Ward of Standard Oil; and Frank of Los Angeles, who was presiding here, overruled Strang's high standing in the community and urged probation. Strang was represented by Attorney Hanna of Los Angeles.

Mrs. Strang No. 1 vigorously defended that the marriage was one of convenience. She and Strang had

TRIPLE TRAGEDY IN COLTON HOME

After Wife Shoots Herself Man Dies by Same Gun

Woman Neighbor Wounded by Bullet That Killed Him

Initial Cause of Fatality Living But Unconscious

SAN BERNARDINO, Nov. 16.—Two brothers killed by a man, probably with the intent of killing his wife and seriously wounded a neighbor woman as the result of a bathroom suicide near here in a Fontana ranch home tonight.

Fred W. Jenkins, 50 years of age, a wealthy Philadelphia architect, shot himself through the heart and died instantly after his wife, Mrs. Emily Jenkins, 40, had sent a bullet through her body in an attempt to commit suicide.

Mrs. Walter Verner, 55, a neighbor, was wounded in the abdomen in the same case as the victim. She was rushed to the hospital near the heart. Both women were brought to the hospital.

Mrs. Bryant makes her home with Miss Edna Bryant, her granddaughter, assistant librarian at Ontario Public Library.

NOTEBOOK CLEW IN POISONING

Missing Record May Show Name of Woman With Whom White Had Date

SAN DIEGO, Nov. 16.—Efforts to identify a woman with whom E. E. White, 64-year-old realty man, had an engagement on the night of the 7th inst., when he was returned to his home in an automobile dead, were being made here today by police.

After a day dedicated to the investigation, various studies of White's mysterious death, O. A. McCollum, detective sergeant, said he had learned that White had an appointment with a woman on that night.

A little notebook, which White possessed and which is said to have contained a record of his engagements with a number of men and women, is believed to contain the name of his companion on the night he died. McCollum is seeking this book.

White died of a rare poison which was found in his vital organs, autopsy surgeons determined after examining the body.

McCormick examined this poison and the circumstances under which it was administered remains a mystery.

The real-estate man was delivered home dead by a mysterious man and woman who notified a neighbor, Mrs. Jane Hyatt, that White would be found in the car parked in front of his home.

Twins Arrive by Caesarian Route

MONTEREY PARK, Nov. 16.—In one of the rare cases of its kind, twin boys were born by a Caesarian operation last night at the Garfield Hospital to Mrs. H. C. Riblett of 2914 Evelyn avenue, Wilmar. The condition of the mother and the two babies was said to be "very good."

Other new offshoots of the family are: Dr. Lorenzo V. Smith and Dr. M. G. E. Bennett, assisted the attending surgeon, Dr. Dee M. Rees.

The life of the first infant was endangered by the operation and the doctors acted it out by emergency treatment. The babies were born in Slauson Hospital.

Newton D. Baker, former Secretary of War under President Woodrow Wilson, with representatives of the Los Angeles law firm of O'Malley, Tuller and Myers, arrived in the city yesterday. Their client, Mr. McCormick, Attorney General of California, was appointed guardian of her incompetent husband, Stanley, and his \$40,000 estate and to remove the brother, Harold F., and the sister, Mrs. Anita McCormick Blaine, from the board of guardians today were preparing to wire him. The babies were born in Slauson Hospital.

Baker declared the proprietor had not taken the license number of the car he was driving, although it is required to under the state of California. He says he is "new" in the State and was not aware of the regulations.

COUNCILMAN SWEORN IN

SAN FERNANDO, Nov. 16.—Charles V. Walzer, who was recently appointed a member of the San Fernando City Council to succeed H. G. Muegge, resigned.

The hearing was originally scheduled to open Tuesday but the call for Judge Dehy has caused a postponement until Thursday. The legal battle over the guardianship over the multimillion-dollar estate began last fall when Mrs. Monteclaro, wife, filed a petition to remove the brother and sister from the board of guardians.

The differences between the brother and sister on one side and the wife on the other is over the employment of Drs. J. E. Kempf and Dr. William White of New York City. Dr. Kempf lives on the incompetent millionaire's estate while Dr. White maintains offices in the East.

Mrs. McCormick specifically charges Dr. Kempf with attempting to alienate the affections of her husband and of attempting to make his care of Stanley a life's job.

Mrs. Strang No. 1 vigorously defended that the marriage was one of convenience. She and Strang had

WIDOW IN PLANE WILL STREW FLYER'S ASHES

SAN BERNARDINO, Nov. 16.—Taking the air, to conquer the world, the widow of St. Louis, Mo., emerged in aviation since the World War, both as a flyer and technical expert. She organized the Federal Aircraft Corporation in San Bernardino and supervised the manufacture of aircraft. A division of the Department of Commerce engineering approval of the plane's design had blocked continued production and Ayars had gone to Tia Juana to make a nonstop flight to Mexico City. When the plane started to roll out, the engine stalled, one of the propeller blades blew out turning the plane over. Ayars was crushed to death in the cabin of the ship. Benny Meuer, the pilot, was slightly hurt.

Ayers, known chiefly as one of the builders of Col. Charles A. Lindbergh's plane, the Spirit of St. Louis, had emerged in aviation since the World War, both as a flyer and technical expert. He organized the Federal Aircraft Corporation in San Bernardino and supervised the manufacture of aircraft. A division of the Department of Commerce engineering approval of the plane's design had blocked continued production and Ayars had gone to Tia Juana to make a nonstop flight to Mexico City. Chief Refuses to Resign to Save Pension

Commission Reported Split on Ouster Action

Mayor to Maintain Stand of Neutrality

(Continued from First Page)

Before noon yesterday was followed by an admission that he thought he should inform Major Porter at once that he would fight the charges.

The conference between Davis and Porter lasted almost two hours.

The following statement was handed to Major Porter by Chief Davis:

"My dear Mayor Porter:

"I have informed you that I would resign as Chief and that I would be restored immediately to my former rank and in that event no charges would be filed against me.

"I am deeply appreciative of your stand and wish to state my position so there can be no possible misunderstanding in regard thereto.

"I have served the city for over seventeen years to the best of my ability, working up from patrolman, through many ranks to the position of Chief. Should I serve the city for twenty years I would be entitled to a pension. When I adopted police work as my profession I did not and prepared myself in every way known to me to perfect myself in my life work. I have no other trade.

"I have a wife and five children dependent upon me for support and my entire savings are invested in a modest home. I am a taxpayer and citizen of Los Angeles and have lived here until my health leaving me to my wife's care.

"Mrs. Davis, who has stood by me for fourteen years, approves these sentiments.

"Under such conditions you will realize how much your protection means to me, especially after you know that when I accepted the position of Chief it was in the belief that my service rules governed.

"For weeks the papers have been full of the fact that charges were to be brought against me.

"The commission will visit Salt Lake City and Denver, as well as St.

Louis.

"None of these charges are definite form, but they are definite.

"I have reached the highest position of my goal as of the 15th inst.

"The central division organization is composed of busy business men who are devoting their time and energy for this great cause," Lewin reported.

"I have a desire to himself politically important so that he can collect money for his own personal

CITIZENSHIP SCHOOL WILL HAVE BANQUET

The student body of the school of citizenship and public administration of the University of Southern California, composed of city and county employees attending evening college classes in the sciences of government, will have a civic progress banquet on December 6. Almost 300 public officials, department heads and municipal service workers are in the body.

NEW BASE TAKEN OVER BY AIR LINE

Boeing System Shifts Its Mail and Other Activities to Burbank Field

Boeing System, whose planes fly 10,000 miles a day on the Seattle-Los Angeles-Chicago air mail, express and passenger routes, yesterday officially took possession of its new air base, the United Airport at Burbank at the city limits of Los Angeles, where the north and southbound commercial mail planes of the Pacific Air Transport used the terminal.

The first ship with mail, express and passengers which had left the Pacific Northwest in the morning landed at Burbank terminal at 5 o'clock. At midnight the "midnight all mail" left with mail and express for Portland and Seattle.

This airport of 240 acres, owned by the United Aircraft and Transportation Corporation, of which the Boeing companies are subsidiaries, represents an investment in excess of \$1,500,000, and plans call for a substantial increase in capital investments in the immediate future.

The Burbank Airport is thirty minutes from Los Angeles City Hall. The formal dedication will occur shortly after the first of the year.

Delegation of Mexican Trade Chiefs to Tour

Prospects of a large delegation of Mexican officials and business men from cities of the West Coast and the capital, visiting Los Angeles next summer, were indicated here yesterday in a wire received by Secretary-Manager A. G. Arnall of the Chamber of Commerce, from the chamber's executive which is now touring the neighboring republics.

In a message to Arnall, President Shultz, Grandee of the chamber, who is heading the tour party, told of a conference with Ramon P. De Negri, Secretary of Commerce, Industry and Labor of Mexico, with the result that official co-operation was promised in sending a large delegation to attend the meeting of the annual session of the International Foreign Trade Council which meets here in May of next year. The definite date of the convention is not yet known.

Quarrel Places One in Hospital, Second in Jail

Mrs. Leila Brown of 130 Electric Avenue, Monterey Park, is in the Garfield Hospital suffering from a possible skull fracture, and Joseph William Johnston, 33 years of age, is being held for questioning by the Sheriff's office as a result of a neighborhood quarrel Thursday night according to reports filed at the Sheriff's office yesterday.

Witnesses assert Mrs. Brown called at Johnston's residence, induced him to go out to the sidewalk for a private talk and then started to beat him with a piece of glass.

After being knocked to the ground, Johnston grasped a short piece of lumber and threw it at Mrs. Brown striking her on the head, according to the officers. He then disarmed her and called the Monterey Park police department.

JUDGES WILL SPEAK

Superior Judges Blake and Hollister will speak at 8 p.m. tomorrow in the branch library at 2801 Wabash avenue, their subject to be "The Story of the Children of Our Neighborhood." H. Kraft, president of the Property Owners Committee, which arranged the meeting, announces entertainment and news regarding the community center and a new school.

Broadcloth and Velvet For Misses

Models for the younger woman or miss include Broadcloths, Velvets and new Sports fabrics which are very interesting. Style commands the attention at once, for the radical change in lines which has come upon us, is plainly evidenced in these youthful Coats.

Furs on the Dressy and semi-dressy Models include Manchurian Wolf, Lapin and Caracul.

With these dressy and semi-formal Coats are included some strictly informal designs of Velvet — without Fur-Trims. Snappy, jaunty coats embodying the style-touches youth so wants. The Velvet is high-grade and the choice is of black or brown. Sizes from 12 to 20.

Black, Tan, Brown, Mixtures.
Sizes ranging from 12 to 20.

—The Coat Shop—Fourth Floor

Specially Purchased or Reduced in Price! Smart Sports Ensembles

For Women and Misses

\$53

Sized from 14 to 42

TWEEDS in two-piece suits with three-quarter coats, furred to the very hem with Tuxedo collar. Any woman will be proud to own one of these beautifully designed street and sports suits. Many single models.

Caracul Tuxedo Collars of Quality
Tans, Browns, Wines and Blues

Oxford-type fabrics also appear in this group with smart satin blouse to wear with severely tailored, furless suit. By the way, the coats are lined to match the blouses. Colorings similar to the tweeds. Many one-of-a-kind designs. \$53.

—The Fourth Floor—Sports Shop

Sharply Reduced Prices Dressy Frocks

Selected from New, Seasonable Models

\$33

THE BROADWAY'S generous reductions on these usually higher-priced frocks spell Opportunity for many a woman. Included in this \$33 gathering are silhouetted afternoon frocks, of beautiful Crepes and even a few Suits of Velvet. The colors are Black, Blue and Brown. Sizes 16 to 40. Quality of material and design emphasize the worth of these frocks.

Mostly one of a kind models.

LOS ANGELES (Loco Ahng hay! sin)

MEMBERS OF THE ASSOCIATED PRESS
We Associated Press exclusively entitled to the news of every country in the world. The news of all countries credited in this paper and other news published here written.

The Times aims at all times to be accurate in every published statement of fact. Readers who discover any important inaccuracy or statement will confer a favor by calling the office of the Editorial Department to the attention of the editor.

We employes of The Times is permitted to accept any gratuity, in money or its equivalent, from any individual, group or organization having no civic or business relations with us. It is the only nation that does not need the food-ship immunity approved by the President. Whatever benefit America will receive by international adoption of the President's suggestion is the removal of the risk of being dragged into a war, not of her seeking, by violation of her neutral rights, as has happened on two former occasions. What this has to do with our so-called expansionist interests we leave to Fascist intellects to figure out.

Frenchmen also admit that even if immunity for food ships should prolong a war the spectacle of helpless women and children slowly starving in their beleaguered homes is far more repulsive than that of active combatants killed on the firing line. The criticism of the Journal des Debats, however, is useful in confirming the conviction of peace lovers, that to mitigate the horrors of war is synonymous with its total abolition.

The London Daily News strikes this note, too, when after warmly eulogizing the President's "practical, vigorous initiative in implementing the Kellogg pact," it expresses the doubt "whether all attempts to humanize war are anything but a pitiful illusion." It must be admitted that granting free access of food ships to the noncombatants in belligerent countries will not by itself humanize war. It would be necessary to prohibit many other things at present permissible under the laws governing international warfare, such as bombing cities from the air, destroying farms and houses with tanks and shell fire, filling the air with poison gases, exploding torpedoes in the hulls of any kind of commerce-carrying ship.

In fact, even if every present war operation except the slaying of actual combatants on the battle fronts were barred by international agreement, war would still be the most inhuman business to which mankind could devote its energies. The only way to humanize it is to substitute the council chamber for the battlefield. In the meantime the President's Armistice Day speech is a magnificent proof that the American nation is willing to make all reasonable sacrifices to reach this goal.

EARNING TRADES
King George has been having numerous conferences with various workers. He may soon prove to be not only a mason and cabinetmaker, but a fair plasterer.HONORS EXCHANGED
The University of Paris has conferred its highest degree upon Prof. Einstein, who happens to live in Berlin. The arts and sciences do not believe in long carrying the scars of war.POSITIVELY YES
Scientists are still searching for what they call the positive zero. They ought to have jaunted off with Commander Byrd. He has been able to pick up a positive zero most any morning.ALWAYS SERIOUS
It is noticed that Mussolini does not smile when he is being kissed by a Fascist general. The big chief is determined never to face the sternness of his visage. It takes more than a bedtime story to bring a grin to his map.KING OF THE DEEP
The latest French submarine is more than 400 feet long and mounted with six-inch guns. It also has a cruising radius of more than 1,000 miles. It would seem that as a harbor defense this titan was a whale of an assailant.LIFE FOR THE PLACE
Sir Ronald Lindsay, who will be the British Ambassador to this country, has had two American wives and should, therefore, be adept in the diplomacy of the country. Also he has long been the British Undersecretary for Foreign Affairs and is, therefore, familiar with the politics of the world. He should be a notable asset in the diplomatic circle at Washington.THE BIG FLYER
Plans are in preparation for an American plane that is expected to lift 600 passengers into the air at one time. It will be equipped with a dozen motors, each of 100 horsepower, and will be qualified to cope with any wind. The cost of the giant will be something like \$4,000,000, which seems like a lot of money. Nevertheless, if it could be operated up to expectations it would be able to pay a good return on the investment. A craft like that could cross the Atlantic in a day. That would be worth a lot of dough to some folks.LABOR IN MEXICO
The unions sought to run the Ford plant in Mexico and fix it so that no man could be employed there unless he belonged to their organizations. But word came that the plant would be closed rather than operate under such terms and the walkout urged by the union leaders was beaten by a small margin when the workers came to take a vote. The Ford plant pays the highest wages ever known in Mexico and jobs there are greatly in demand. There is no reason why any worker should pay tribute to outside labor leaders for a chance to go or a strike.THIS NOISELESS WORLD
In the world of practical science we are next to have microphones and sound-recording devices mounted on trucks, but used for the public rather than for the talkies. The cities will own and operate them and they will travel around picking up noises to be later isolated against. If there is a riot in Chinatown the racketeer can be sent down into the district to pick up a record of what it is all about. When the affray gets into the court the jury can listen to a reproduction of what actually took place. By picking up the horrors of a town the citizens may be put in the ultimate way of being rid of some of them. It listens like fine business.

TO HUMANIZE WAR
European reaction to President Hoover's Armistice Day speech is mostly commendatory and naturally centers on his sensational declaration in favor of granting immunity to food-carrying vessels in time of war. Germany and England, as a whole, frankly approve the suggestion. France adds the cynical reflection that free food for countries in time of war will add to the loss of life by prolonging the time nations will thus be enabled to carry on the conflict. Fascist Italy alone comes out in open opposition, professing to see in President Hoover's attitude one calculated admirably to serve "American expansionist interests."

Since the United States is the only world power entirely able to feed its people indefinitely throughout the longest war, it is the only nation that does not need the food-ship immunity approved by the President. Whatever benefit America will receive by international adoption of the President's suggestion is the removal of the risk of being dragged into a war, not of her seeking, by violation of her neutral rights, as has happened on two former occasions. What this has to do with our so-called expansionist interests we leave to Fascist intellects to figure out.

Frenchmen also admit that even if immunity for food ships should prolong a war the spectacle of helpless women and children slowly starving in their beleaguered homes is far more repulsive than that of active combatants killed on the firing line. The criticism of the Journal des Debats, however, is useful in confirming the conviction of peace lovers, that to mitigate the horrors of war is synonymous with its total abolition.

The London Daily News strikes this note, too, when after warmly eulogizing the President's "practical, vigorous initiative in implementing the Kellogg pact," it expresses the doubt "whether all attempts to humanize war are anything but a pitiful illusion." It must be admitted that granting free access of food ships to the noncombatants in belligerent countries will not by itself humanize war. It would be necessary to prohibit many other things at present permissible under the laws governing international warfare, such as bombing cities from the air, destroying farms and houses with tanks and shell fire, filling the air with poison gases, exploding torpedoes in the hulls of any kind of commerce-carrying ship.

In fact, even if every present war operation except the slaying of actual combatants on the battle fronts were barred by international agreement, war would still be the most inhuman business to which mankind could devote its energies. The only way to humanize it is to substitute the council chamber for the battlefield. the LEE SIDE o' LA by Lee Shipley

Personal Glimpses of Famous Southerners

SOME critics have suggested that Zane Grey has turned himself into a word mill and isn't worrying at all about art, and the fact that he probably is making more money than any other writer living has made a large percentage of the pseudo-literary snatch at that idea. But if you call on him at his lovely home in Altadena you will learn these things:

Zane Grey is a direct descendant of Col. Ebenezer Zane, who opened up the Ohio River and held Fort Henry for twenty years against the Indians and the British.

He was born in Zanesville in 1875 and was one of those boys it cheers parents to read about—he was so bad the neighbors all thought he'd wind up in jail.

He belonged to a gang which had a cave, in which they ate swiped water-melons, roasted swiped chickens and plotted raids on nearby orchards.

There, too, Zane wrote his first story, "Jim of the Cave," in which Jim was a great hero and a light-haired girl a great heroine, but Jim didn't get her, as all the gang got killed.

Alas, how youth's idols are shattered! Later, after a quarrel, Jim, the story hero, told on the other boys and brought Zane's father to the cave.

The roof was torn off, the concealed plunder brought to light, chasements which left marks and memories administered—and the manuscript of "Jim of the Cave" burned.

Always a Sportsman

Zane was a crack baseball pitcher, too, that University of Pennsylvania scouts induced him to attend that school. He was a poor student, but he was a great patron of the university library. He was too valuable to the baseball team to be flunked, however, and came out with a degree—D.D.S. He practiced his profession in New York a while, but on vacations wrote some tales of fishing and canoeing which were accepted. So he decided to give up his profession and write books!

He wrote a novel called "Betty Zane" and was so confident that he married and his elder son was born. But the book was not accepted. Editors urged him to give up the idea of writing. He used up all his money and had to live on his wife's, but her faith was as great as his and she would not let him do otherwise. He joined Buffalo Jones as a sort of publicity man—New Yorkers laughed at Jones's stories of his western exploits and Grey was to go West with him and prove them true. So he was introduced to the most picturesque life of the West by one of its most picturesque characters.

Writing For Posterity

The names of Dickens, France and Sir Philip Gibbs popped up in our mind like telephone numbers on an automatic switchboard, but we murmured the name of Irvin Cobb.

"Brilliant journalist, no doubt, and first-class magazine writer. But I hardly look on him as a novelist."

"Most of your novels appear first in the magazines. But you don't look on yourself as a magazine writer, then—only a book writer?"

"Of course. I never pay any attention to the magazines. I suppose Dr. Guest is responsible."

We said something about B. L. T. and F. P. A., and added that Eugene Field was the first columnist we knew of.

"I don't recognize those initials," he said. "I never read the papers. I consider newspaper writing entirely separate from literature. I never knew of a newspaper man who produced any real literature except Kipling."

LEAGUE RADIO PACT EFFECTED

Swiss Stations Will be Used for Communication

Agreement Reached After Lengthy Negotiation

Plans Calling for Separate System Deferred

BY JOHN S. DAGGETT

Radio communication between the League of Nations and the various governments of the world will be carried on through stations to be erected and maintained by the Swiss government, under an agreement just perfected, according to advice from Washington.

The League has rejected the present idea of establishing its own system. In times of emergency, however, the Swiss stations may be taken over by the League and the way also is left clear for the League to construct its own stations at any future time should such a course prove desirable.

The arrangement finally made provides that the Radio-Suisse Company will erect medium-wave and short-wave stations, "which shall meet the League's requirements shall be built in conjunction with all the latest technical improvements and shall be operated as directed by the League, preference being given to the needs of official traffic."

END OF NEGOTIATIONS

This agreement brings to a close negotiations which have extended over a period of two years in an effort to arrive at a satisfactory settlement of Switzerland's objections to the League's station. These were based on the contention that it might react unfavorably against Switzerland's neutrality in another European war. The agreement is to run for ten years.

Elimination of portable broadcast stations on the ground that they comprise a source of interference to radio receivers and therefore threaten the public interest, has been approved by the Court of Appeals of the District of Columbia, thus settling, unless an appeal is taken to the Supreme Court, one of the most bitterly contested decisions rendered by the Federal Radio Commission.

The court held that the commission acted within its authority in revoking all portable broadcast licenses May 10, 1928.

NO CHAIN LIMITATIONS

Limitations on chain radio programs will have to come from Congress itself, it is indicated in reports from the capital of the results of the Federal Radio Commission to adopt an order prohibiting the simultaneous broadcasting of the same program by two or more high-power stations, except by special permission of the commission. The only votes favoring the order were those of Chairman Robinson and Commissioner McFarland.

Objections have been raised that the purpose in the setting aside of forty channels of broadcast for exclusive use of a similar number of stations, with a view to preventing programs which give preference to any section of the country good reception without interference, has been nullified by the chain hook-up system.

In view of the commission's failure to deal with the question, opponents of chain broadcasting in Congress probably will seek to have this phase of the situation discussed when radio legislation comes up at the regular session which convenes December 2, next. It also is probable that the investigations which are to be made by the Senate Interstate Commerce Committee will go into the matter.

YULETIDE SPOTS

Members of the apparel of Yuletide, the Civic Club will present Miss Ernestine Schumann-Heink, Pedro de Cordoba, actor; Giuseppe Tamburini, orchestra conductor, and Dr. S. Parker Chapman as guests at the annual pre-Christmas broadcast through the KRL radio system this evening at 8:45 o'clock, to be released here by KFWL.

An interesting two-hour program, known as the Home Sweet Home program, will come from KFWL and the Don Lee San Francisco station through KRL this morning at 8. There are forty-one numbers on the program, including in addition to the orchestra selections, songs by Lucile Harger, contralto, and George Bruns, basso.

A special feature, after KRL at 8 p.m., will be a horn and flute duet of the popular Tilla's "Serenade." The flute accompaniment will be played by Julian Furman, first flute player of the Los Angeles Symphony Orchestra, who composed the music for the program originally, especially for this occasion. The horn will be played by Louis Du France, first horn player of the Chicago Civic Opera Company.

New Postoffice Branches Open

Announcement was made yesterday by Postmaster C. E. Clegg of the opening of two new postoffice branches.

One is located in what now is known as the West Los Angeles, in addition to George E. Gruen. The other, known as the National Military Home Branch, is at Sawtelle and is in charge of Earl M. Phelps.

PORT GIVEN HIGH PRAISE BY GERMANS

Visitors from Hamburg
Say Methods Used Here
Solve Their Problems

Tribune was paid Los Angeles Harbor yesterday by the port commissioners of Hamburg, who completed their tour of the harbor by a survey of the local harbor. According to the visitors, Herren Wilhelm O. Sieveking, Walter G. J. Boettcher and Oskar G. W. Wundram, the efficiency of Los Angeles Harbor facilities compares very much highly with that of any of the three American ports already inspected.

Speaking for the trio, Herr Sieveking said:

"Our port of Hamburg is identical with yours, in that it is almost entirely man-made. Because we feel that you are doing a great job, we would show as the way to solve many ahead of us, we returned the port for our final visit.

We surely have had our eyes opened by your system of concentration and centralization of port facilities.

Hamburg's port business, however, is such that we have reached the limit of our facilities and must expand immediately."

The visitors were shown about the port in the Harbor Department, launched by Capt. Paul Chandler and Col. Charles Cook of the Chamber of Commerce, and by Chandler, vice-president of the Los Angeles Steamship Company and P. A. Dieter, of the Hamburg-American Line.

Today, they will visit Catalina and tomorrow evening sail for home aboard the Hamburg-American motor liner Los Angeles.

EVIDENCE SUBMITTED IN SLAYING

Discrepancies in Bolton's
Story Will be Told to
Grand Jury

Evidence gathered by Deputy Sheriff Penprase, Brewster and Gray in their investigation into the murder of Mrs. Lucille Bolton yesterday was placed in the hands of Percy Hammom, Deputy District Attorney in charge of grand jury instances.

Hammom tomorrow will prepare the list of witnesses to be subpoenaed to appear before the grand jury Tuesday to tell what they know about the case.

John Bolton, husband of the dead woman, still is being held in the hands of police while officers continue to check his story that Mrs. Bolton was killed and he was slightly wounded by two bandits who held him up near Topanga Canyon on the Roosevelt Highway on the 8th inst.

According to Capt. William J. Bright, chief of Sheriff Traeger's homicide investigation detail, witnesses have been found who said the shooting occurred near La Playa Canyon instead of Topanga Canyon as related by Bolton.

Numerous other discrepancies have been found in the young dancing master's story, the officers ascertained. He came to the scene of the shooting and then wounded himself to perfect an alibi.

MISSIONARY MEETING SCHEDULED FOR TODAY

A missionary mass meeting under the auspices of the Negro Ministers' Union will be conducted at 3 p.m. today at Second Baptist Church, Twenty-fourth street and Griffith avenue. The principal speaker will be Dr. H. Graham, corresponding secretary of the Carey Foreign Mission Convention, which is affiliated with the National Baptist Convention of the United States. A special musical program will precede the address. The public is invited.

FAMILY'S ADDRESS SOUGHT

A request for aid in locating Harry Asman and family, who recently left the Bertrand ranch, near Manteca, was made yesterday by Lotte Asman, of 1086 East Penn Avenue, Emeryville, Calif. She said that Mr. and Mrs. Asman, a daughter and two small sons, started three weeks ago from Manteca to visit Jess Kuhn of 508 West Emeryville Street, Wilmar, and that she has been unable to get word of them.

POLICE DECODE NOTE OF BOY SLAIN BY GUN

Detectives yesterday decoded the cipher message left by Gay Bud Clark, 15 years of age, whose mysterious death by pistol shot in a garage at 5447 La Mirada avenue was called a suicide by police, although a Coroner's jury returned an open verdict. The Interrogation last night at the coroner's office, which did not release the body until Friday, found that Vauchel had poisoned himself by an injection of arsenic taken with suicidal intent.

Home for Girls to Open Bazaar

Articles made by the girls at the Florence Crittenton Home will be offered at cost at the annual sale and bazaar commencing tomorrow and continuing throughout the week. The bazaar is to be opened at 357 South Hill street, it was announced yesterday by Mrs. Wilcox Stoddard, secretary.

The Florence Crittenton Home is supported by voluntary contributions and the sale enables the girls of the home to add to the funds for the maintenance.

PETITIONS RECEIVED FOR STREET JOBS

Petitions have been received by Council asking for the improvement of La Mirada avenue between Calabasas and Serrano and Serrano and Adams, the continuation of widening Adams street to a width of eighty feet from La Cienega Boulevard to Canfield avenue. The former was referred to the City Engineer and the Public Works Committee and the latter to the Street Opening and Widening Committee and the City Engineer.

PENNNSYLVANIANS TO MEET

Election of officers of the Pennsylvania State Society is announced for the meeting Tuesday in Franklin Hall, 945 South Figueroa street, Los Angeles.

The meeting is to be presided over by Capt. Cato, in charge of the investigation, who is continuing the search for A. L. Fenlon, divorced husband of Mrs. Nicholson, question.

Man Hurled Beneath Train Will Recover

Police yesterday continued their investigation into the asserted capture and attempt to murder Frank Nicholson in the Southern Pacific yards last Friday by two men. Nicholson is in the White Memorial Hospital recovering from injuries resulting, according to his statement, to persons who pushed him between two moving freight cars.

In making his asserted escape his hand was so badly injured when it was run over by the train which it was assumed had hit the 26-year-old Nicholson. The man was reported to be progressing favorably yesterday by Capt. Cato, in charge of the investigation, who is continuing the search for A. L. Fenlon, divorced husband of Mrs. Nicholson, question.

Palestine Riots to Be Described

Street interviewers will hear an eye-witness account of the recent tragic happenings in Palestine today when Jacob M. Alkow, formerly prominent in Jewish welfare and educational work in this city, addressed a mass meeting in Temple Emanuel, Manhattan avenue and Wilshire Boulevard, at 8:15 p.m.

Mr. Alkow not only was an eyewitness to the riots and massacres which cost the lives of hundreds of innocent men, women and children in Palestine, but he himself was a victim of the Arabs, he said. He will devote himself during the next several months to the work of organizing the strength of the Jewish people of Los Angeles and the Pacific Coast, groups of them who are rebuilding the Holy Land.

The meeting this evening will mark the inauguration in Los Angeles of the National Zionist Roll Call, through which the National Zionist Executive Committee plans to enroll at least 500,000 Jews throughout the United States for the cause.

FRED REXHOTT SOUGHT

Request for aid in locating Fred Rexhott, brother to the late Leo Rexhott, was made yesterday by C. H. Hermey of Houston, Tex., who writes that he is a half-brother.

SALVATIONISTS AID MULTITUDE

Hundred Thousand Meals
Given Away Here

Great Work of Army for
Year Summed Up

House That Junk Built
Godsend to Needy

One hundred thousand meals were given away last year by the Salvation Army of Los Angeles, according to Brig. Gen. C. Gifford, commanding officer of the south coast division, with headquarters at 622 West 8th Street. And besides all this there were thousands of poor and needy families given substantial diets of chicken, beans and potatoes, with all other trimmings, at Christmas time.

Brigadier and Mrs. Bell are just completing three and one-half years' work in this city, which service has been directed by the general staff. At the recent meeting of staff officers in the commander's cabinet at San Francisco, the plans were accepted for a material output of \$300,000 the coming three years, which amount will be expended in the Los Angeles division in building, salaries, pensions and community centers.

"We are going more and more to make the Salvation Army a power for good in this community," the brigadier said last night. "We feed the hungry, we visit the sick and the aged, we care for the children, we help the sick and in prison, and so far as we are able physically and financially, we will minister to those who are in need."

At Christmas time the Salvation Army, under Brig. Gen. C. Bell, its commanding officer, devoted itself to bringing good cheer and happiness into the lives of the neglected and underprivileged. Homes which with its ministrations would go without a roof over their heads, and little gifts for children, who without the help of the army would be githens, are made.

UNIQUE INSTITUTIONS

Under the brigadier's leadership there have been fostered in this city some of the real unique institutions of the world. One is the Evergreen Home, 1005 West Sixth street, which is as well equipped as any hotel could be. It is for working girls who have no home. They pay a reasonable amount for the rooms and board, have a place to exercise in the sunroom, and also the companionship of other young women.

A maternity home, a summer beach-air camp for underprivileged mothers and children at Redondo, and a number of community service halls and temples in a dozen surrounding cities and towns, have been among the things accomplished during the period of his command in this division.

"If a human being has never been born, he could be born them," nearly a quarter century ago Lieut.-Col. William H. Gooding, now commanding officer of the Los Angeles division of the industrial department of the Salvation Army. was asked that question, and out of the answer has come Southern California's greatest philanthropic institution, with plants in Los Angeles, Pasadena, Long Beach, San Pedro and other cities in the Southland.

WHAT JUNK WILL DO

Fifty pounds of newspaper furniture and one good meal while 100 pounds of junk provide a man with two good meals and a night's lodging. Since these things are true, Col. Gooding said last night, it is not a crime to burn papers? A hungry man cannot eat much, but he can eat what they will buy him.

Four hundred men can be cared for in the Salvation Army plant, 121-123 Weller street, Los Angeles, where Col. Gooding has his divisional headquarters. Junk provides bedding and food for 1000 men, friends and relatives from Southern California and the rest of the country. Of them, in addition to the 400 in the metropolis, Long Beach accommodates 125, San Pedro, 150; San Diego, 150, and Pasadena, 100.

"It is a marvel what kind of a man

ASSEMBLY SETS NEW MARK

Salvation Army Young People's Rally Declared
Greatest Ever Held by Organization in West

The greatest young people's demonstration ever held in the West by the Salvation Army took place last night in Trinity Auditorium, with Commissioner Adam Gifford presiding. More than 2000 delegates from all over the Southwest assembled at an early hour and by the time of opening the doors at 7 o'clock, the visitors had packed the street in front of the building. Motion-picture cameras clicked, making pictures for news reels, while the uniformed Girl Guards, corps cadets and Boy Scouts waited in line.

An outstanding feature of last night's program was the formal recognition of the Boy Scouts, herebefore known in Salvationist circles as life-saving scouts, as an integral part of the national Boy Scout organization.

Girl Guards were honored by receiving the title of General Girls. The girls, from Los Angeles, Pasadena, Long Beach, Belvedere and Ingleside.

LIVE SAVERS HONORED

Brig. Gen. C. Bell, 40 years of age, the son of Brig. Gen. C. Bell, commanding officer of the South Coast-Los Angeles division of the Salvation Army, was given a citation by Commissioner Gifford, in command of the eleven western States and territories. The lad, a medal and line for the Corps, a medal and line of age will go to General Hall in Patriotic Hall, while all over the state will meet in the large auditorium on the main floor in the same building.

Illustrations on Page 7 of the Rotogravure Section of today's issue of The Times.

Sages contend that the ambitions of a lifetime, finally achieved, are but hollow comfort after all. But sages are not always right and they might even be moved to change their minds if they could see the satisfaction which has come to Herman W. Frank, for many years identified with the mercantile life of Los Angeles, in the realization of an ambition cherished since boyhood.

He has always wanted to own Arabian horses. Recently his dream came true and he is as pleased with the result as a boy with a Chihuly bicycle.

"The people of this city," he said, "always have known me as a merchant. But as a matter of fact, I have been a lover of horses ever since I rode the range near Pendleton, Or., as a boy, and I needed no convincing when you say that some day I would own an Arabian horse which would be as much like the horse I rode as a lad as it would be possible to find."

LIFE QUEST ENDS

Junior Aircraft Victors
Los Angeles Times aircraft graduates win capital prizes in model plane contest at the Western Aircraft Show. Walfrid Swanson, winner of first place in multi-motor division, and Francis Wardell, winner of medals in both the open and closed divisions. COAT CLEW FOLLOWED IN WRECK

Garnet Believed Lost by
Train Bandit Bought in
Pocatello Store

Ownership of the gray coat found in the wreck of the Southern Pacific West Coast Limited train near Sanger Sunday night, and presumed to have been discarded by the bandit who robbed the passengers of the wrecked train of approximately \$300, has been traced through a second-hand store in Pocatello, Idaho, Sept. 20. Details of the Sheriff's robbery squad investigating the hold-up made this announcement last night.

According to the Sheriff's office, the coat is part of a suit originally purchased two years ago by a city employee of the Illinois and later sold to a second-hand dealer.

Capt. Brooks said the marks in the sleeve linings were made by the second-hand dealer, but added that the work of tracing the subsequent owner will be long drawn out.

Capt. Brooks said the coat was

Jaunt Around Country and Will Sail

Approaching the end of a tour of the United States that began October 1, twenty-one leaders of Japan's industrial, financial and commercial life are in Los Angeles, en route home. Headed by Seizo Nakagawa, ex-minister of the Japanese Imperial Government Railway and director of the Japanese Tourist Bureau, the party registered at the Biltmore and will leave Monday for San Francisco, where they will board ship Wednesday for home.

GAY DAYS OF NINETIES RECALLED

Wheelmen of Former Age
Banquet and Reminisce
on Times Gone By

Days of bowler hats, high-wheel bicycles and mustaches were recalled amid much laughter and high jinks at a banquet of the Wheelmen of the Last Century at the Ambassador last night. More than 150 old-time wheelmen attended with members of the party at the Biltmore.

The women of the nineties also took part in a show at the luncheon and when photographs taken in the period revealed some of them garbed in bustle dresses, standing apparently aghast at the sight of a high-collared young lady wearing divided Arabian stock, in addition to pedestal pedigrees that would excite the envy of any a member of the human family.

Both of the horses are desert bred. King John having come from Cairo and with him Queen Maloma, and after the long and arduous trip from Alexandria, the pair are now here at the Los Angeles Riding Academy, where they are being groomed for possible exhibition in the world.

King John is 6 years old, fourteen and a half hands high and classed as one of the fastest horses in all Egypt. An agent of the King of Egypt wanted him badly and it was only with the greatest difficulty that Frank was able to bring the animal out of the country, for real Arabians are scarce.

Both of the horses are desert bred. King John having come from Cairo and with him Queen Maloma, and after the long and arduous trip from Alexandria, the pair are now here at the Los Angeles Riding Academy, where they are being groomed for possible exhibition in the world.

Wheat Futures Sharply Up on Heavier Buying

CHICAGO, Nov. 14. (P) — Big buying that suddenly developed in the wheat market at the late dealers, with prices not nearly purchasing was an official statement from the Washington office of the Commodity Future of Washington, Inc., a division of the U.S. Treasury.

Today's advance, too, was well in line with threatening world development of wheat supplies, which were reported as available of 20,000,000 bushels, the largest amount since the corresponding week of 1929.

Growing indications on wheat were strong, 4,000 bushels up to 1,000,000 bushels a day.

Corn closed 25¢ up, up 1¢, up 1¢, up 1¢.

Rice rose to the extent today, with the price of buying enthusiasm in the wheat pit, however, until the final half-hour of trading.

By auction oranges averaged as follows: last week, 25¢; this week, 26¢; and the corresponding weeks of 1929 and 1930.

This week, 25¢; last week, 26¢; and the corresponding week of 1929, 25¢.

Oranges quotations on wheat were strong, 4,000 bushels up to 1,000,000 bushels a day.

With the present market, the previous unchanged.

Black rice, the export today, was reported as having enthusiasm in the wheat pit, however, until the final half-hour of trading.

By auction oranges averaged as follows:

last week, 25¢; this week, 26¢; and the corresponding weeks of 1929 and 1930.

This week, 25¢; last week, 26¢; and the corresponding week of 1929, 25¢.

Oranges quotations on wheat were strong, 4,000 bushels up to 1,000,000 bushels a day.

With the present market, the previous unchanged.

Black rice, the export today, was reported as having enthusiasm in the wheat pit, however, until the final half-hour of trading.

**FOUR ARRAIGNED
ON FRAUD COUNT**

*Details of Asserted Plot
by Group Revealed*

*Lorraine Corporation Said
to Have Been Victimized*

*Defendants Will Enter Their
Pleas at 2 P.M. Thursday*

Details of an asserted plot to defraud the Lorraine Corporation, a concern dealing in oil-well supplies, of thousands of dollars were revealed for the first time with the arraignment of four men before Superior Judge Aggerer yesterday, charged with conspiracy to commit grand theft and making false entries in the corporation books.

The four defendants are named in three separate indictments. Walter B. Summers, secretary and treasurer of the Lorraine Corporation; Horace C. Dickey, an employee of the same concern, and Rudolph C. Germer, are named in the first indictment, which also charges with conspiracy and four counts of grand theft.

A separate indictment charges Dickey and Summers with conspiracy to commit grand theft and making several false entries in the State Corporation Act.

The third indictment charges Summers and R. J. Prout with making false entries in violation of the State Corporation Act.

The investigation into the affairs of the defendants has been under way since the arraignment of Dr. Dist.-Atty. Molasses, attached to the complaint department. The indictments were returned secretly by the county grand jury Friday.

After being arraigned all of the defendants were released under bond and directed to return to court Thursday at 2 p.m. to enter their pleas.

**HORSE SHOW
TO BE GIVEN
IN NEW AREA**

*Sportmen's Auditorium to
House Enlarged Event
Here March 1 to 8*

Initial plans for the ninth annual Los Angeles horse show at the Sportmen's Auditorium, scene of the recent aircraft show at Wilshire Boulevard and Fairfax avenue, March 1 to 8, were announced yesterday.

The program is being arranged under the direction of W. D. Longyear, president; W. W. Mines, chairman of the board; Ben H. Meyer, chairman of the executive committee; Mr. and Mrs. Collier, secretary and other officials of the Los Angeles National Horse Show Association.

"A total of \$100,000 in prizes will be awarded the winners of the various classes in the three Pacific Coast shows this winter with \$25,000 of the total amount at stake in the local events," said President Longyear yesterday.

The Los Angeles equine exhibition has become more important annually during the last nine years. The facilities at the Ambassador Auditorium where the former shows have been held are no longer adequate to provide for the large number of entries and the seating capacity for the public.

"Our new location will give us housing facilities for 500 horses and parking space for approximately 3000 automobiles. The Auditorium will have a regulation size horse show ring surrounded by 200 boxes of six and eight seats each, and 5000 balcony seats of which 2500 will be sold at 50 cents each. Because of our increased facilities we expect many new eastern exhibitors this year."

**All Year Club's
Campaign Found
to Do Wonders**

All Year Club advertising is getting excellent results throughout the United States, according to the observations recently made by George L. Browning, president of the Seaboard National Bank, while on a three-week business trip to the East and Midwest.

"I was particularly gratified to observe in the many contacts on my trip the remarkably effective manner in which the All Year Club's national advertising is moulding the minds of thousands of better-class families to make vacation and pleasure trips to Southern California," said Mr. Browning yesterday.

The fact that so many of the substantial people I met were making definite plans to come here this winter or next summer caused me to realize fully what a effective advertising we have in the Southern California tourist campaign conducted by the All Year Club. California owes much to its tourists because their annual expenditures of millions of dollars in various commerce, channels and their investments have been important factors in the development of our sound economic structure."

**Maps Approved
on Assessments**

Assessment district maps for the following projects have been approved by Council: Improvement of Tyrone avenue between Wilshire street and Magnolia Boulevard; Glendon avenue between Wilshire Boulevard and Wellworth avenue; One Hundred and Sixty-fifth street between Orchard and Vermont avenues, and the north side of Fifth street between Grand avenue and Hope street; construction of a bridge in Reeves street between Pico Boulevard and a point 500 feet south of Casino street and in the One Hundred and Eleventh-street and Towne-avenue sewer and water main; opening and extending Hickory street to a width of sixty feet between One Hundred and Second and One Hundred and Third streets.
